

BHX Runway Closures Winter 2016

(All times in local time)

Maintenance activities required to maintain the safe operation of Birmingham Airports single runway operation must be carried out when the runway is closed.

Such maintenance activities include rubber removal, airfield lighting repairs, paint marking, drainage cleaning and pavement repairs not just limited to the runway but also in heavily trafficked key manoeuvring areas.

In addition to these activities the same runway closures are being used as part of the Runway Extension and Resurfacing project to address items of snagging (final contractual year).

Closures have, where possible, been timed around currently scheduled movements however, Birmingham Airport recognises the inconvenience that these closures may cause and will try to minimise their impact.

For the first three weeks, each night the runway closure will commence at 23:10 and the runway will then reopen at 06:00 the next morning*.

For the final two weeks, each night the runway closure will commence at 23:10 and the runway will then reopen at 04:30 the next morning*.

*Exceptions to these timings will be highlighted in grey below.

Please ensure you study the below

Day	Dates	Month	Start	Finish	Total Duration of Closure	Status
T/W	1/2	NOV	01/11/2016 23:10	02/11/2016 06:00	6:50	Runway Closure via AIP Supplement and NOTAm
W/T	2/3	NOV	02/11/2016 23:10	03/11/2016 06:00	6:50	Runway Closure via AIP Supplement and NOTAm
