

For the attention of air carriers operating air services to London and Scotland Airports between 11th June and 11th July 2021 for the UEFA Euro 2020 Championship

Subject: UEFA Euro 2020 Championship in London and Glasgow

The UEFA Euro 2020 Championship Group and Knockout Stages will be hosted at Wembley Stadium in London and Hampden Park in Glasgow.

This will undoubtedly lead to additional demand at London airports and GLA with the busiest traffic periods expected between the first knockout fixture on the 26th June and the Final on the 11th July.

For the period of the 23rd June (last day of group stage fixtures) until the 14th July (3 days post final fixture), ACL will be implementing a slot allocation procedure to ensure punctual airport operations to aid efficient and effective utilisation of airport capacity.

ACL in partnership with the London and Scotland Airports have put in place the following procedure to be adhered to by all operators:

- All slot applications will be collected for knockout matches (last 16) in London by 23rd June (Rof16 match 2) and 26th June (Rof16 match 7) and Glasgow by 26th June (Rof16 match 8), semi-final 1 by 04th July and semi-final 2 by 05th July and the final by 08th July. Please [click here](#) for full tournament schedule
- Upon receipt of slot requests ACL will process accordingly and refer to the appropriate airport. The airport is then required to respond to ACL with either an acceptance, offer or refusal which ACL will put to the carrier
- Air carriers intending to operate live flights for this event must specifically use service type "O" and for non-revenue ferry or positioning sectors service type "P"
- The slot request must be sent in standard SSIM format as set out by the World Slot Guidelines (WSG) and composed as a Schedules Clearance Request (SCR). If any SSIM errors are present, the message will not be processed and will be returned for correction. Messages can be sent to either SITA LONACXH or email lonacxh@acl-uk.org
- All SCR messages must include corresponding arrival and departure requests (linked/turnaround format) to ensure the best available use of parking available (including ferries as service type "P")
- In the supplementary information (SI) field please state as much of the following as possible for ACL to best accommodate/expedite your slot request:

- Air carriers H24 operations contacts (email and telephone number)
 - Confirmation of designated handling agent (please see additional info at the end for each airport handling agent)
 - If applicable any other information such as team flight/or specific VIP requests
- An example of an SCR we would expect to process is as follows:
