

LTN Scheduling Declaration Summer 2023

London Luton Airport Scheduling Declaration Summer 2023

This document sets out the capacity limits of the various airport sub-systems that make up the seasonal scheduling declaration for Summer 2023. The relevant information is specified under each sub-system category specified below

1. Runway scheduling limits
2. Night noise movement restrictions
3. Stand capacity limits
4. Passenger Terminal scheduling limits

Runway Scheduling Limits

Summer 2023 Declaration (R60)

UTC Hour	00	01	to	04	05	06	07	08	to	17	18	19	20	21	22	23
Arrival Limit	11	4	>	4	6	22	20	21	>	21	22	20	26	21	13	11
Departure Limit	4	4	>	4	22	24	22	24	>	24	24	22	23	14	4	4
Total Limit	11	8	>	8	22	37	31	33	>	33	37	31	37	26	15	11

Summer 2023 Declaration (R15)

UTC Hour	00	01	to	04	05	06	07	08	to	17	18	19	20	21	22	23
Arrival Limit	3	3	>	3	6	6	6	7	>	7	7	7	7	7	6	3
Departure Limit	3	3	>	3	8	8	8	7	>	7	7	7	7	5	4	3
Total Limit	3	3	>	3	10	12	10	10	>	10	12	10	12	9	6	3

1. There is no change to the declared runway limits.
2. Total limit of **12,880,000 seats** will apply across all Passenger Air Transport Movements coordinated in the S23 season.
3. Maximum of **124** movements in any 4 hour period (**R240/60**) is applied to allow scope for catch-up in the event of schedule disruption.
4. 15 minute limit (**R15**) is set to reduce bunching around the hour and reduce airfield congestion and runway holding.
5. 5 minute limits (**R5**) are set at 4 departures and 4 arrivals
6. Runway scheduling limits consider typical taxi time to and from the runway.

Night noise movement restrictions

Peak Summer Night Restriction

The following restrictions will apply 2200-0559 GMT 14th June – 16th September

- No ad hoc movements will be permitted including Commercial, GA and Maintenance
- No further night slots will be allocated to series flights
- No re-scheduling of existing allocated slots from the day time 0600-2159 GMT into the night time 2200-0559 GMT will be permitted
- No new slots or amendments within the night period will be granted to aircraft with QC value greater than 0.5

Seasonal Scheduling Limits & Restrictions

The following restriction will apply 2200-0559 GMT for the full season

- No aircraft with a QC value greater than 1.0 will be permitted to operate during the night time 2200-0559 GMT

Night noise movement restrictions

The following Seasonal Limits apply to Night Movements and Noise Quota Count (adjustments for taxi times apply)

	Night period 2230-0459 Movements (QC)	Shoulder period 0500-0559 Movements
Historic Allocation	5,210 (1,790)	4,880
Contingency Pool	530 (117)	0
Ad Hoc Pool	910 (171)	100
Total	6,650 (2,078)	4,980

Annual Night Movement Limits apply as follows:

2330-0559 (local): a maximum of **9,650** movements on a 12 month basis

In terms of slot allocation* this will restrict departure slots 22:15-04:45 GMT and arrival slots 22:30-05:10 GMT

0600-0659 (local): a maximum of **7,000** movements on a 12 month basis

In terms of slot allocation* this will restrict departure slots 04:50-05:45 GMT and arrival slots 05:15-06:10 GMT

Annual Night Noise Quotas apply as follows:

2330-0559 (local); an annual Noise Quota (QC) of **3,150**

In terms of slot allocation* this will be applied to departure slots 22:15-04:45 GMT and arrival slots 22:30-05:10 GMT

The QC category of 0.125 will be recognized and applied at LTN for the W19 season and all subsequent seasons.

**Allowing for typical taxi time between chocks and runway*

Stand Capacity Limit

Cargo Flights

Cargo flight scheduling will be subject to the following aircraft parking limitations, any movements over and above these limitations will be by prior arrangement only.

LTN Size Grouping	Example Aircraft	Number of Stands
Size 1 (smaller Code C)	A320, B738 all variants	7
Size 2 (standard Code C)	A321, B739 all variants	31
Size 3 (longer Code C)	MD80 series	4
Total Aircraft (Code C)		42

Passenger and associated Positioning Flights not being handled by FBO's

Initial schedule coordination will be carried out subject to the following aircraft parking limitations, any movements over and above these limitations will be by prior arrangement only.

LTN Size Grouping	Example Aircraft	Number of Stands
Size 6 (Smaller Code E)	A330	1
Size 5 (Code D)	A300	1

Stand Capacity Limit

Permitted Variations

Size 4, 5 and 6 aircraft can be accommodated using MARS stands with a consequent reduction in capacity for Size 1-3 aircraft.

LTN Size Grouping	Example Aircraft	Number of Stands
Size 5 (standard Code D)	A306, B763	11
Size 6 (smaller Code E)	A333, B789, B772	2
Total Aircraft (Code D-E)		13

Maintenance Flights not being handled by FBO's

Aircraft movements to/from maintenance hangars will only be allocated slots on a PPR basis, permission is unlikely to be given where early re-positioning into hangars, or early departure after exit from hangars, is not guaranteed.

Stand reserve, not made available for scheduling purposes without specific prior agreement

Stand reserve, not made available for scheduling purposes without specific prior agreement

LTN Size Grouping	Example Aircraft	Number of Stands
Size 2 (standard Code C)	A321 all variants, B739	1

Stand Capacity Limit

Restricted and Prohibited Aircraft Types

- 1 x Size 6 aircraft (A332 or A33F only) may be accommodated on Cargo
- 2 x Size 6 aircraft (A332, A333, B788, B789, B772) can be accommodated on the Passenger Terminal. Passenger operations by Size 6 aircraft require a minimum of 24 hours' notice.
- Size 7 aircraft (A359, B77F, B77L) require specific prior permission (PPR) and may be refused.
- Size 8 aircraft cannot be accommodated.

FBO handled flights

FBO facilities have their own aprons which are self-managed and therefore outside of the above restrictions. Aircraft operators planning to operate through FBO facilities must ensure that the FBO is able to provide them with aircraft parking. Parking of FBO handled aircraft outside of FBO controlled and operated aprons will be strictly by prior arrangement only and may be refused.

Aircraft Size Groups

The following size groups apply locally at LTN to determine actual parking capacity:

Size	Length	Wingspan	Code
1	<=40	<=36	C
2	<=45	<=36	C
3	<=47	<=36	C
4	<=48	<=42	D
5	<=60	<=52	D
6	<=64	<=61	E
7	<=64	<=65	E
8	>64	>65	F

Passenger Terminal Limits

Departing passenger limit

Time UTC	1 hr (T60/15)	2 hrs (T120/15)
0000-2100*	3,870	6,845

Arriving passenger limit

	Time UTC	1 hr (T60/15)	2 hrs (T120/15)
International	0000-2359	2,800	4,350
Domestic	0000-2359	700	n/a

- Load factor for Schedule Coordination purposes will be 94%
- Departing capacity in the period 2100-0455 is manpower restricted, any departing PATM's using the main Terminal that are scheduled or re-timed into this period will be subject to strict PPR to ensure that demand can be adequately resourced.
- CTA - common travel area, defined as Channel Islands, Isle of Man and Republic of Ireland are included in International arrival capacity limits. Domestic includes Northern Ireland.
