

LOCAL GUIDANCE 1 – Oman Airports

Over Filing Process for Oman Airports (Current / Next Season):

1. OA to send ACL the list of flights which are unlikely to operate (after checking website for sale availability).
2. ACL to communicate with the Airline for evidence of operation with dates of operation.
3. The Airline will be given 7 days to respond.
4. Airline to either confirm/decline the slot to ACL – No response from the airline will be treated as no confirmation.
5. If ACL has the proof of operation from the airline then maintain the slot and inform OA. If no proof is available then remove the slot and inform the airline & OA.
6. The minimum duration to cancel the flight is 4 weeks from the date of the cancellation notice and a maximum duration is for the entire season (unless specified with evidence from the Airline).
7. The released capacity from the cancellation will be available for the pool of slots for other potential new flights.

OA = Oman Airports

ACL = Slot Coordinator
