

Dublin T2 Departure Constraints – Important Update

At Dublin Airport, Terminal 2 departures are now managed under two separate constraints, Terminal 2 overall departure capacity and CBP-specific departure capacity (as defined in the capacity declaration)

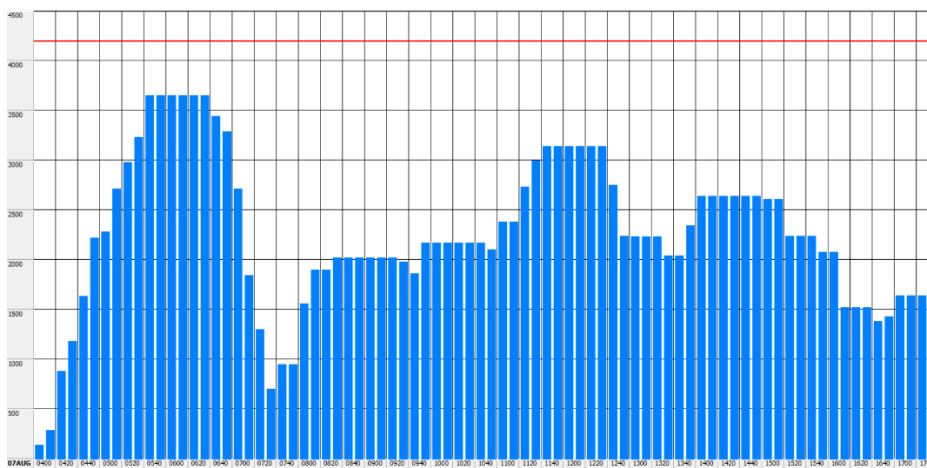

OCS currently cannot display these constraints separately. Instead, it combines them and shows availability based on the lower of the two limits for the selected time.

This means if you are scheduling a non-CBP operation, the system may appear full even when capacity is available. In these cases, you should: test your flight in OCS or submit an “Ask Us” request. This ensures any available capacity (outside CBP restrictions) can still be considered.

SCORE - Terminal 2 CBP Single Day Histogram 07AUG

SCORE - Terminal 2 Single Day Histogram 07AUG

OCS - Merged View of both with utilisation and capacity to show the limit jumps between 1450 (CBP) and 4200 (T60/10)
