

# Local Rule – S27

## Training and Technical Stop Flights

Riyadh Airports Company (RAC) has initiated a series of development projects aimed at enhancing the existing infrastructure and increasing overall resources and capacity. Effective 28th May 2023, several Aerodrome rehabilitation projects have been executed that resulted in limited availability of operational aircraft parking stands across all aprons in King Khalid International Airport (RUH).

| Operation                 | Status        | S27 / W26 Requirement                                                                                                                                                                    |
|---------------------------|---------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Training Flights          | CONDITIONAL   | Training flights (IATA SSIM Chapter 6 service types T & K) are conditional to RAC approval to be operated at King Khalid International Airport during Winter 2026 & Summer 2027 seasons. |
