NOTES:

- **Departures limits are the maximum number of passengers that can be scheduled to depart in any 60 minute period on any type of flight - inclusive of scheduled/charter, International/UK. Passengers departing on UK flights must not exceed the maximum shown.
- *** For International Arrivals, Domestic Arrivals and CTA Arrivals, the maxima are independent.
- The Terminal limits set out above are 60 minute capacities. To avoid "bunching" effects the Coordinator will cross check capacities over each hour starting at 15 minutes past the hour as well as over each hour.

4 An additional check in desk constraint will be applied for S16 as follows:-

Zone	No of Desks	Declaration
A	15	13
B	15	13
C	15	13
D	14	0
E	15	12
F	15	12

Where the check in desk availability causes a constraint, a referral process will be implemented

Cargo:

Only **3** aircraft stands are available at any one time for B.747 series aircraft on the main cargo apron.

Business Aviation:

Stansted is designated as fully coordinated airport and therefore each business and general aviation movement requires the prior allocation of a slot.

Night quota:

Night quota limits apply at Stansted. The night quota period is defined as 2330 - 0600 (GMT) during which DfT have determined that for the Winter 2015 season the number of movements will be restricted to 5000, and the maximum number of night quota points permitted to be 3310.
